

DRIP EDGES NOW AVAILABLE IN Black

Our top products, now offered in black.

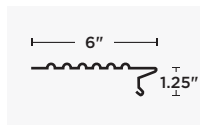

Berger offers a wide range of drip edges to accommodate various roof constructions and applications. We are pleased to expand the color offering in our popular drip edge profiles to include Black. This addition helps to fill out the Berger portfolio and aligns with current color trends in home construction.

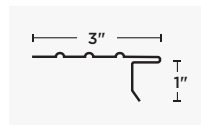

DRIP EDGE

- Helps to control the flow of water away from underlying roofing components.
- Crafted from durable materials, ensuring long-lasting performance.
- Available in convenient 10 ft lengths, accommodating various roof sizes and configurations.

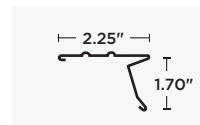

F8 DRIP EDGE

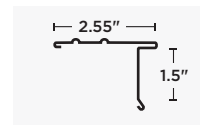

F5 DRIP EDGE

F5 1/2 S DRIP EDGE

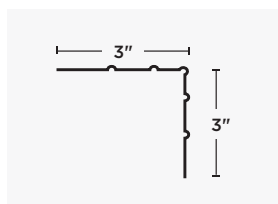

F5M DRIP EDGE

ROOF EDGE

- Helps to control the flow of water away from underlying roofing components.
- Provides protection from water damage along the eaves and rake of a roof.
- Crafted from durable materials, ensuring long-lasting performance.

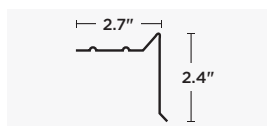

E6 DRIP EDGE

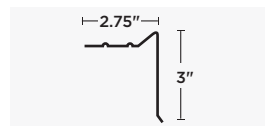

GRAVEL STOP

- Helps to seal the roof edge, preventing water from seeping into the roof structure and causing damage.
- Used on flat roofs to help prevent gravel or granules from clogging water flow in gutters improving the roof longevity.

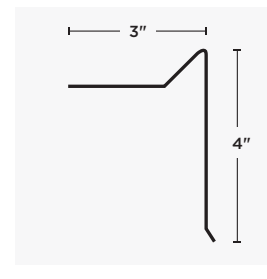

H5 1/2 DRIP EDGE

H6F DRIP EDGE

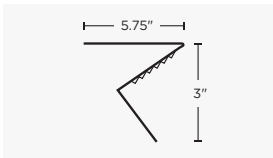

H7 DRIP EDGE

VENTED DRIP EDGE

- Dual purpose drip edge that guides water into gutters but also provides ventilation for homes with little or no soffit area.
- Helps increase intake airflow into attic space.
